

Field Log - Dr. Wick's Live Entertainment

Dr. Wick has decided that the way to draw customers into his new Yummy franchise is to hire live entertainment. After watching four acts, Dr. Wick needs help deciding which act to hire. This is where you come in.

Step 1:

Convert Platypus' and Goon's scores into numbers from 0 to 10 and write them in the chart below. *Remember for Platypus, blue is the best, red is OK and white is the worst.

	Capt. Kazoo and his Buckaroo	"Crocky" McMullet	Funny Bob Doppelganger	Peach Gobbler
Dr. Wick	2	8	9	5
Platypus	Red Ribbon _____	Blue Ribbon _____	Red Ribbon _____	White Ribbon _____
Goon	Thumbs-up _____	Thumbs-down _____	Thumbs-up _____	Thumbs-up _____

Steps 2 and 3:

Calculate the average score for each act. **Keep in mind that Dr. Wick's score counts twice.** Then, use the lines below to explain how you calculated the average score for each of the four acts.

	Capt. Kazoo and his Buckaroo	"Crocky" McMullet	Funny Bob Doppelganger	Peach Gobbler
Average Score				

Step 4:

Circle the act with the lowest average score:

Capt. Kazoo and his Buckaroo

"Crocky" McMullet

Funny Bob Doppelganger

Peach Gobbler

Sum it Up:

Make a list of the math terms or formulae you used to find the average scores of each of the acts.
